SUMMARY

Versatile Full Stack Developer with a wealth of experience in both frontend and backend technologies. Proficient in creating visually appealing and responsive user interfaces using HTML, CSS, and JavaScript. Expertise extends to the backend, where I leverage the MERN stack (MongoDB, Express.js, React, Node.js) to architect and implement robust, scalable solutions. Demonstrated success in collaborating across the development lifecycle, ensuring the seamless delivery of high-performance web applications. Noteworthy achievements include active involvement in multiple live projects, showcasing practical application of skills and a commitment to real-world solutions.
